**Software engineer, seeking a full-stack role to apply my extensive technical expertise in mobile and web development.**

## EXPERIENCE

---

### Freelancer - Mobile Developer

March 2025 - Current

Designed and developed a cross-platform mobile app from scratch for a real estate business using Flutter and Firebase, targeting Android and iOS. Collaborated directly with the client to define requirements. Implemented features such as user authentication, role-based permissions, task categorization, real-time chat, and multi-language support.

### Spinomenal - Game Developer

January 2024 - March 2025

Developed web-based casino games using TypeScript and OOP principles. Led development of the award-winning Game of the Year. Worked closely with designers, QA, and product managers to ship high-quality titles for European and U.S. markets. Built Python automation tools to streamline R&D processes and accelerate delivery.

### Stealth Mode Startup - Full Stack Mobile Developer

March 2022 - December 2023

Built a cross-platform SaaS application using Flutter and Node.js with Express. Designed and implemented from scratch RESTful APIs via routing, controllers, and unit tests using Jest. Collaborated in an agile environment with daily meetings, using Jira for task tracking and Git for version control.

## HANDS-ON EXPERIENCE

---

### MERN - TYPESCRIPT, REACT NATIVE, MONGODB, NODE.JS, EXPRESS - [LINK](#)

Social media application with user authentication where users can upload images and edit their profiles. The chat rooms are implemented with socket.io, and authentication is encrypted with JWT

### POC - FLUTTER, IOT, PYTHON, PYTORCH, AI, FLASK - [LINK](#)

Mobile application that integrates with IoT system including artificial intelligence that detects and tracks your fridge products and their expiration dates by using fine-tuned detr model trained with coco dataset I.E cnn model-based transformers.

## EDUCATION

---

### SCE - B.Sc. Software Engineering

2019 - 2023

GPA: 80

### Meta Certification - [Frontend developer](#)

**Udemy Certifications** - [React Native](#), [Flutter & Dart](#), [Node.js](#), [Python](#), [Data Structures & Algorithms with Javascript](#)

## MILITARY SERVICE

---

**Combat supporter** - Commander on 02/03 Rookies.

2014 - 2017

## SKILLS

---

**Programing Languages:** Typescript/Javascript, Python, Dart, SQL, C#, Java

**Backend:** Node.js, Express, Flask, MongoDB, SQLite, .NET/dotnet

**Frontend:** HTML, CSS, Flutter, React.js, React Native, Tailwind

**Tools:** Docker, Jira, Monday, Jest, Storybook, Amazon S3, Arduino, Firebase

RECOMMENDATION WILL BE GIVEN UPON REQUEST
